Our inaugural group show is coming down to create room for the FUTURE. Here are a selection of pics from the last month! Fan us on Facebook for regular updates...

The opening reception!

EVENT: Heavier Than A Death In The Family

Date: December 4-6

Place: 25 Central Park West

Opening reception: Friday, December 4, 6-9pm

Set in the project room of newly opened art collective 25CPW, H.T.A.D.I.T.F. is a contemporary art show that questions whether some of the socioeconomic conditions of the 60s that inspired the birth of psychedelia aren't analogous to our own current climate, and proposes that inner exploration might be just the prescription to bring us out of an over-saturated media haze. Using a variety of media, the artists in this group show are all working to decode, process, or in some cases reject, the incessant information we are being bombarded with in this hyperreal 21st Century. This show is about looking through the grid and celebrating the resistance.

10 From 25 : Grand Opening Event!

November 14, 2009 in [Uncategorized](#) | [1 comment](#)

Introducing *25CPW* and the inaugural exhibition:

10 from 25: Emerging Artists Using Photography

Opening Reception: Thursday, November 19th, 6pm–9pm

10 From 25: Emerging Artists Using Photography will showcase the work of the ten founding members, each of whom use the medium of photography as foundation for their artistic practice. The exhibition is comprised of varied approaches, ranging from traditional photography to video and sculpture. The show forges new paths and offers fresh visions that challenge photographic representation, the tradition of portraiture, and the depiction of identity within a changing technological landscape.

Exhibition: November 19th – December 13th

Come meet the artists & learn about future events!
